

## IT Services in Residences

This is a brief list of IT services currently available on the University Halls of residence. Please be aware that your University account is for **educational purposes only** and it is regulated by the University by setting a download limit on the account. This is referred to as your quota. If you intend to use the internet on residence for personal items such as MySpace or Facebook, you will need to purchase Internet access via an external internet provider.

For more information on the University of Wollongong Quota system please refer to the link UOW [Student Quota FAQ's](#). Additional information will be provided to you throughout Orientation Week. Refer to the list below for services available at our Accommodation sites.

For more information please contact your site office upon arrival and refer to the Accommodation IT Services webpage (Application forms etc) <http://www.uow.edu.au/about/accommodation/it> .

	Campus East	Graduate House	Keiraview	Kooloobong	The Manor	Weerona	Gundi	International House
