

Better than ever TEACHING SCHOLARSHIPS

There's no better time to
turn your degree into a teaching career

This year's Teacher Education Scholarship Program is better than ever with more scholarships, increased financial assistance, and of course, a guaranteed job when you graduate.

If you're partway through your maths, science, English or teacher education degree and considering your career options, a scholarship will help you turn your degree into a challenging and rewarding career as a NSW public school teacher.

This year's program offers 300 scholarships to talented students wanting to teach science, maths and English and primary or secondary special education.

Of these scholarships, 80 are available exclusively for Aboriginal or Torres Strait Islander students to train as teachers in primary or any secondary subject area.

The new scholarships offer:

- up to \$5,000 annual allowance
- a guaranteed job when you graduate
- \$3,000 when you begin permanent teaching
- plus, you may be eligible for the HECS-HELP benefit from the Commonwealth Government.

Applications close on 2 October 2009.
