

UOW Teacher Evaluation Question Means

(as at March 2009)

The means are for Questions 1–8 of the Teacher Evaluation only. All other questions are optional depending on class size, class format and assessment responsibilities. This data has been calculated from the results of surveys conducted between January 2005 and December 2008.

Teacher Evaluations are not compulsory for all UOW academics, therefore the means are calculated on a self selecting sample.
