

# UOW Teacher Evaluation Question Means

(as at February 2011)

The average means are for Questions 1–8 of the Teacher Evaluation only. All other questions are optional depending on class size, class format and assessment responsibilities. This data has been calculated from the results of evaluations conducted between January 2006 and December 2010.

Teacher Evaluations are not compulsory for all UOW academics, therefore the means are calculated on a self-selecting sample.
