

UOW Teacher Evaluation Faculty Means

(as at February 2011)

The average means are for questions 1–8 of the Teacher Evaluation student questionnaire only. All other questions are optional depending on class size, class format and assessment responsibilities. This data has been calculated from the results of evaluations conducted between January 2006 and December 2010.

Teacher Evaluations are not compulsory for all UOW academics, therefore the means are calculated on a self-selecting sample.

* In September 2009, the Graduate School of Medicine transitioned to Faculty status in its own right, however the four remaining months of 2009 generated insufficient data to document a GSM mean. The GSM results for 2009 are incorporated in the HBS mean.
