Agnieszka Golda and Martin Johnson

“Of course I believe that other worlds exist” Hayao Miyazaki

They fell straight through the device and sensed a whole other world. Insisting that they took the trip: will others take their testimony on faith?

Contact is part of an ongoing collaboration between artists Agnieszka Golda and Martin Johnson that explores forms of affective practices and labour. Utilising their recent fieldwork in France, Poland and Japan they investigate the functions of affect in an intercultural context.
