2008—2009
UNDERGRADUATES & HONOURS STUDENTS

Are you interested in gaining experience in research?
The aim of this scheme is to provide students with an opportunity to engage in and
gain experience in research in an area of interest and to evaluate for themselves, and
demonstrate to others, their potential for research work.

In addition, the scheme provides students with exposure to the
research excellence of the School of Computer Science and
Software Engineering (SCSSE) and the School of Information
Systems and Technology (SISAT) at the University of
Wollongong.

SISAT are offering short research
projects with topics of:

• The strategic use of e-intelligence
• The drivers of customer demand in the third
party logistics industry
• Performance evaluation of two desktop
information retrieval programs
• Corporate governance in the supply chain
• Towards automating social navigation on
the web: simulating web users behaviour
• A call management multi agent system
• A generic description framework for LBS by WSMO
• Semantic correlations between QoS
specifications of P2P-based e-services
• Mapping OWL-S process to classical
BPEL

SCSSE are offering short research
projects with topics of:

• Perception of 3D objects with ultrasonic sensing for
the control of a tethered aerial robot
• Enhanced random testing

FURTHER INFORMATION

See the program website:
http://www.uow.edu.au/informatics/common/scholarship/ and come
along to our SISAT and SCSSE Research Showcases:

SISAT 15 August 2008 5:30pm—7.30pm Building 39 Room 215
SCSSE 22 August 2008 5:30pm—7:30pm Building 3 Room 224

A list of Research Proposals will be available online from 25 July 2008

GENERAL ENQUIRIES
Email: jennings@uow.edu.au
Telephone: 02 4221 4382

APPLICATION CLOSING DATE: 22 September 2008
An application form and a list of the criteria is available from the
following website:
