Wireless Setup Guide for iPhone & iPad

Note: You must be in range of ACHERNAR-BG to configure this network on your device. A map of the wireless network is available on the UOW webpage.

1. Open Settings
2. Select Wi-Fi
3. Select Other...
4. Set the Name field to ACHERNAR-BG

5. Select Security

6. Select WPA Enterprise
7. Enter your University username into the username field

8. Enter your University password into the password field

9. Select Join

10. Accept the Certificate

11. You should now be connected to the Network.

Should your device fail to connect review steps 1 to 10.
12. Select the Arrow to the right of ACHERNAR-BG

13. Scroll to the bottom of the screen and select Auto

16. Your device has now been configured to use the Internet.

Safari will now be able to access the Internet.

**Please note:** Many iOS applications are unable to access the internet though a web proxy. Such applications will not function on the University network.

iOS does not support Java. Web applications reliant on Java, such as eLearning, will not function correctly on the iOS Platform.
