

# Wireless Setup Guide - Windows 8

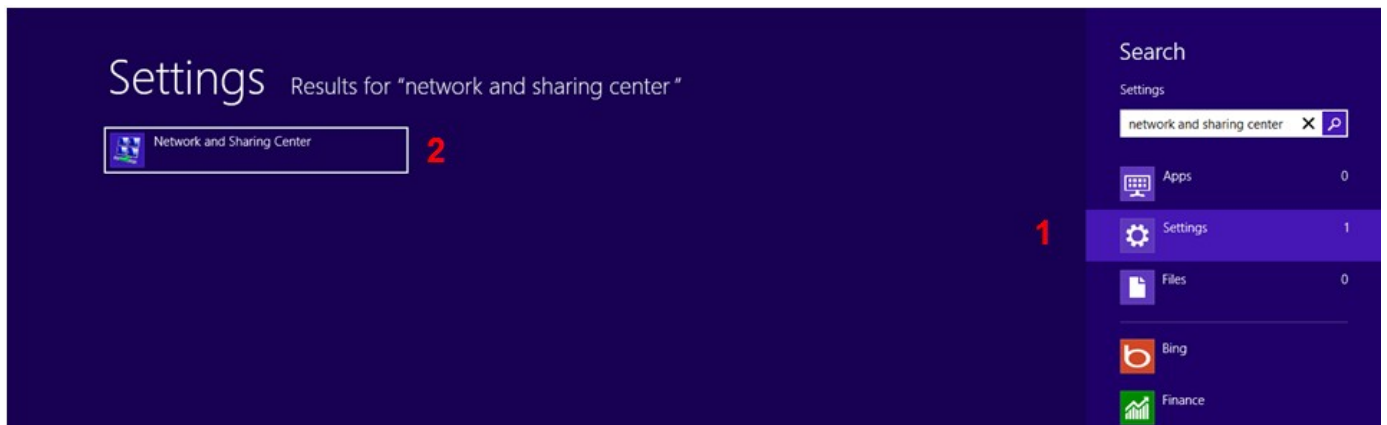

At the windows start screen type: *Network and Sharing Center*

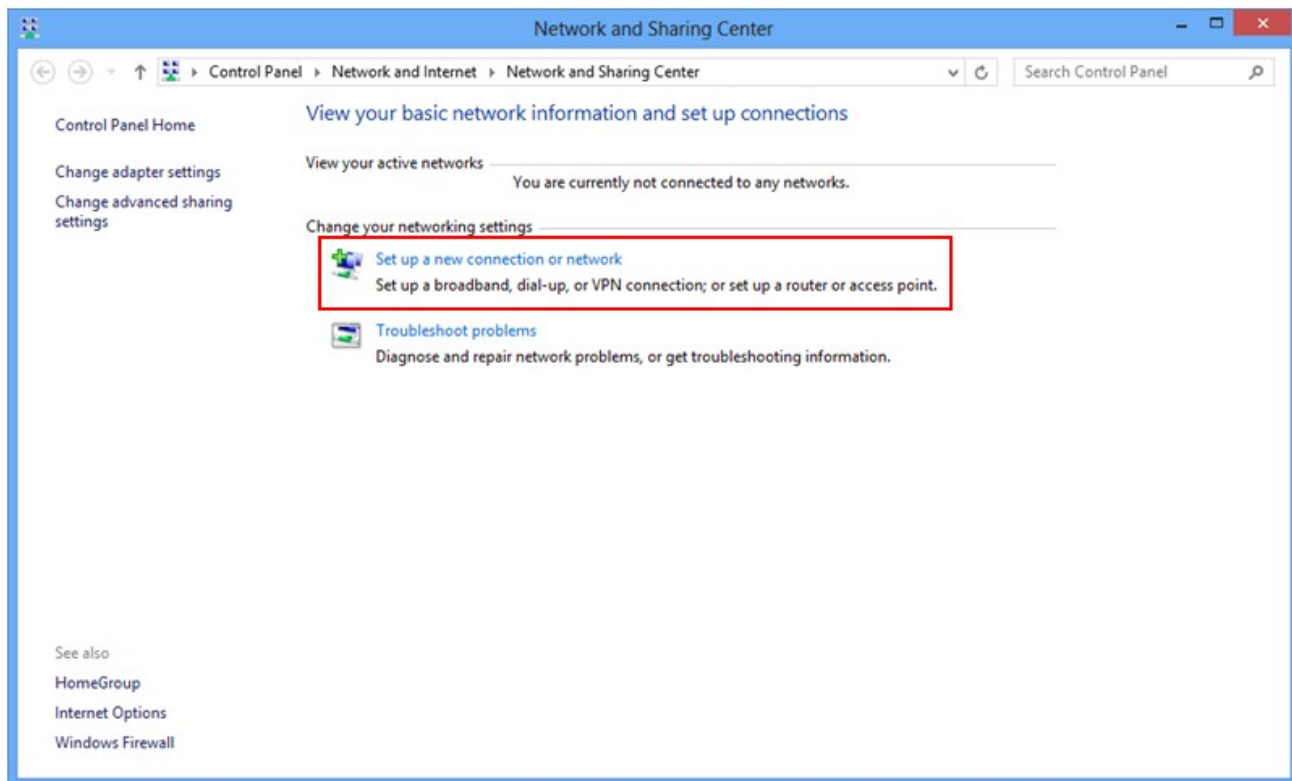

Note: There is no search box, just start typing

First click the **Settings** option below the search box (1)

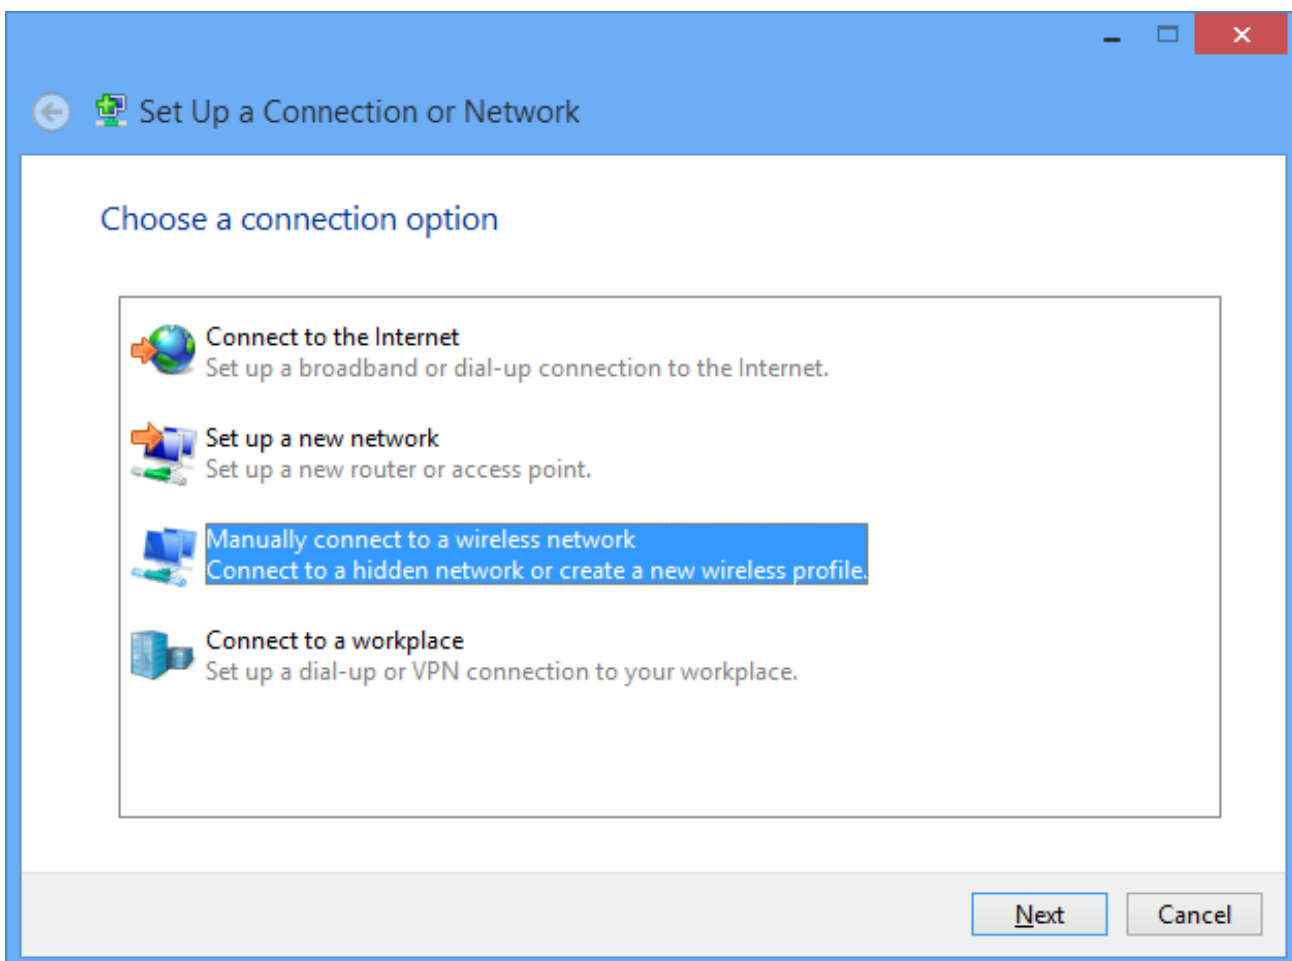

Then click on **Network and Sharing Centre** (2)

Click on: **Set up a new connection or network**

A pop-up window will appear, select the third option **Manually connect to a wireless network** and click **Next**

Enter the information:

- Network name: **UOW**  
*Note: UOW is in uppercase (Capital) letters*
- Security Type: **WPA2-Enterprise**
- Encryption Type: **AES**

Then click **Next**

Manually connect to a wireless network

Enter information for the wireless network you want to add

Network name:

Security type:

Encryption type:

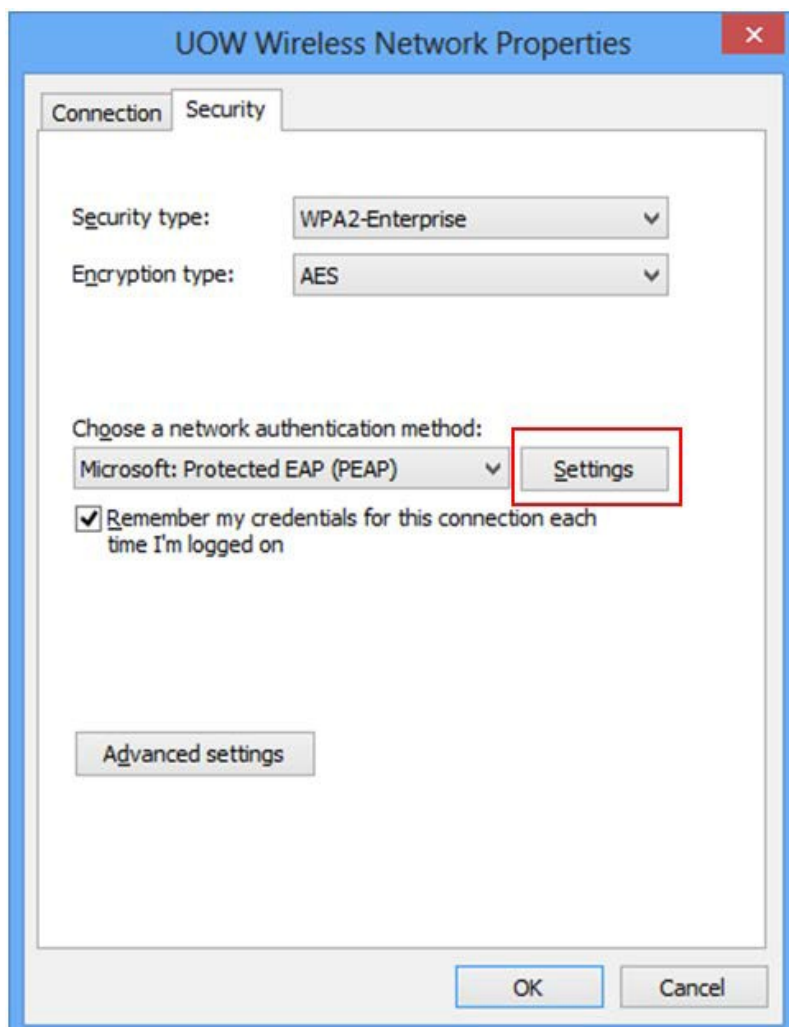

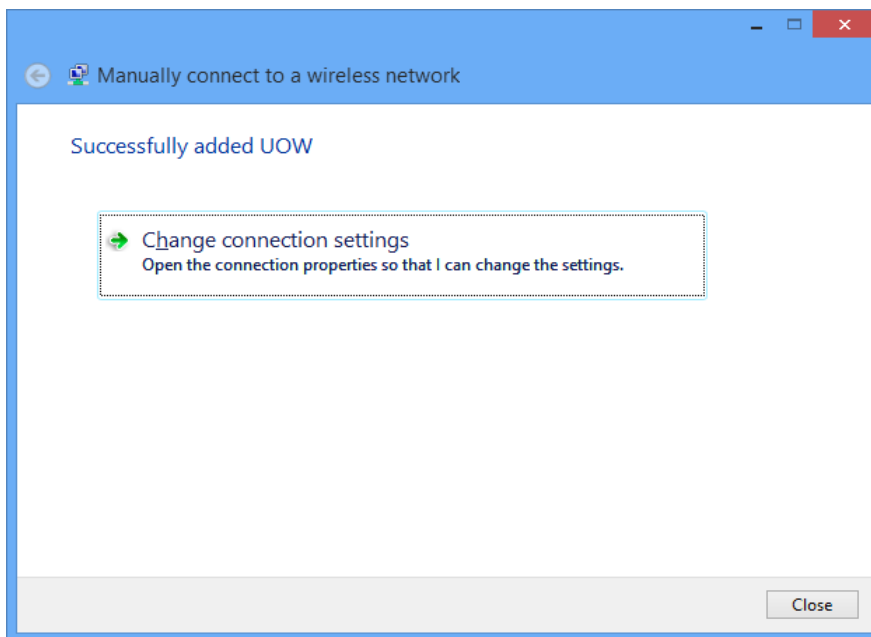

Security Key:   Hide characters

Start this connection automatically

Connect even if the network is not broadcasting

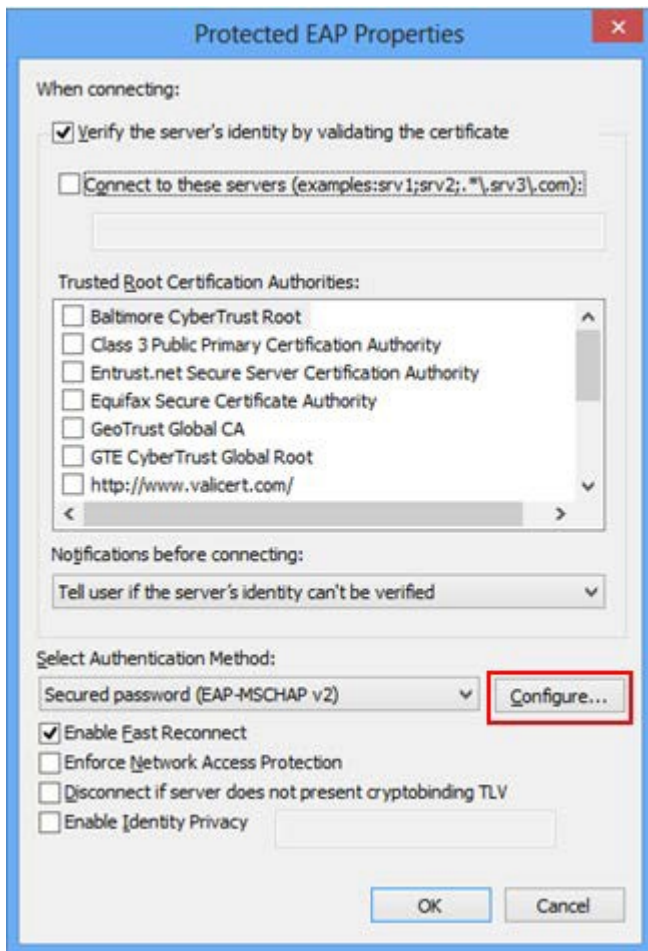

Warning: If you select this option, your computer's privacy might be at risk.

The following page appears to confirm that the UOW network has been created. Click on **Change Connection Settings**

A pop-up window will appear, select the **Security** tab.

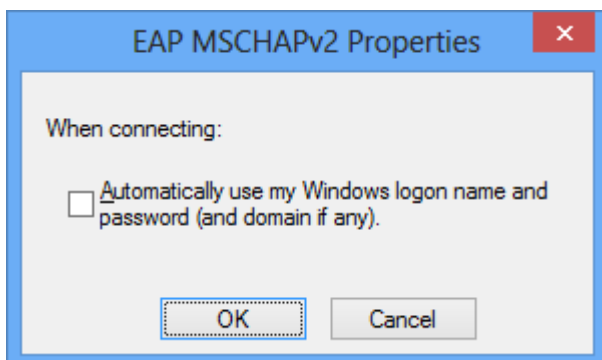

When you settings match the settings shown on the left, click on **Settings**

A pop-up window will appear.

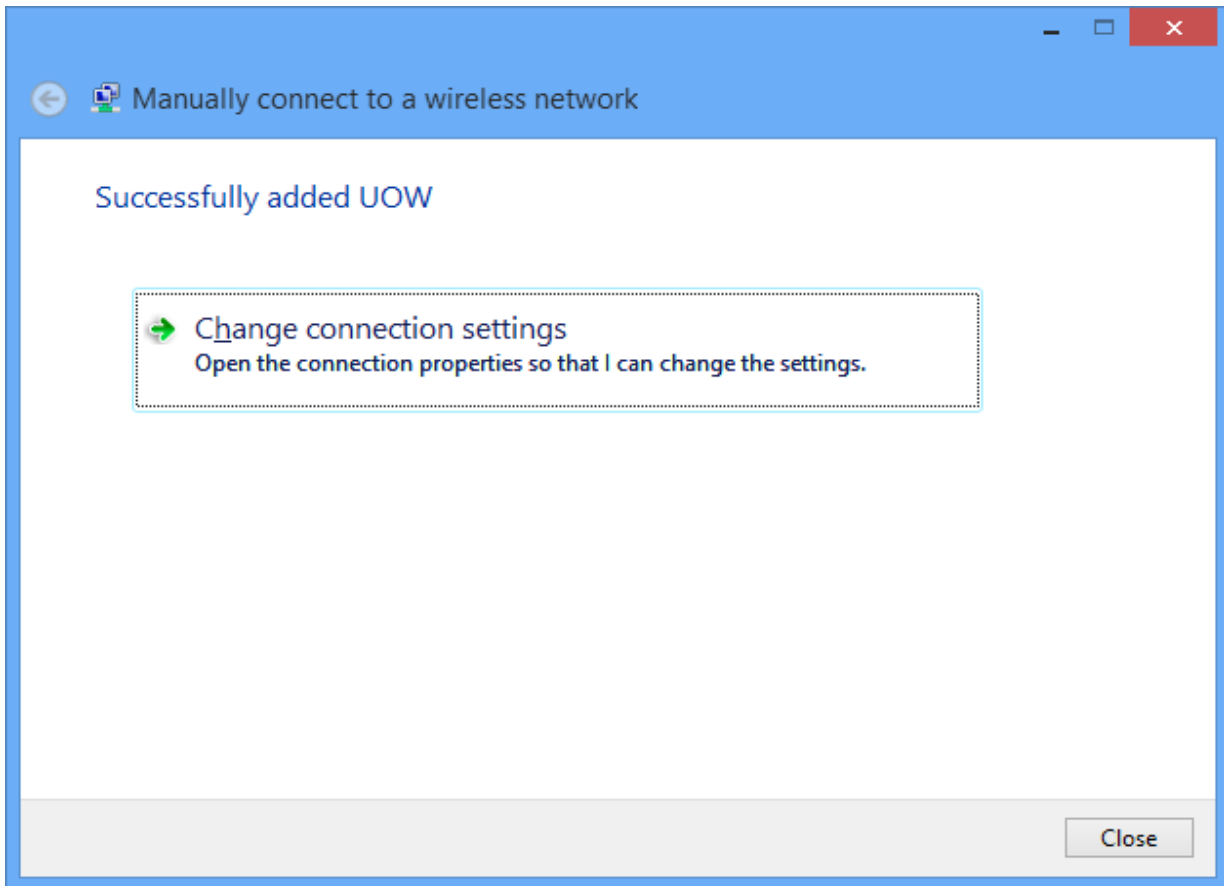

Please ensure that **Verify the server's identity by validating the certificate** is selected and select **"QuoVadis Root CA 2"**

Click the **Configure...** button

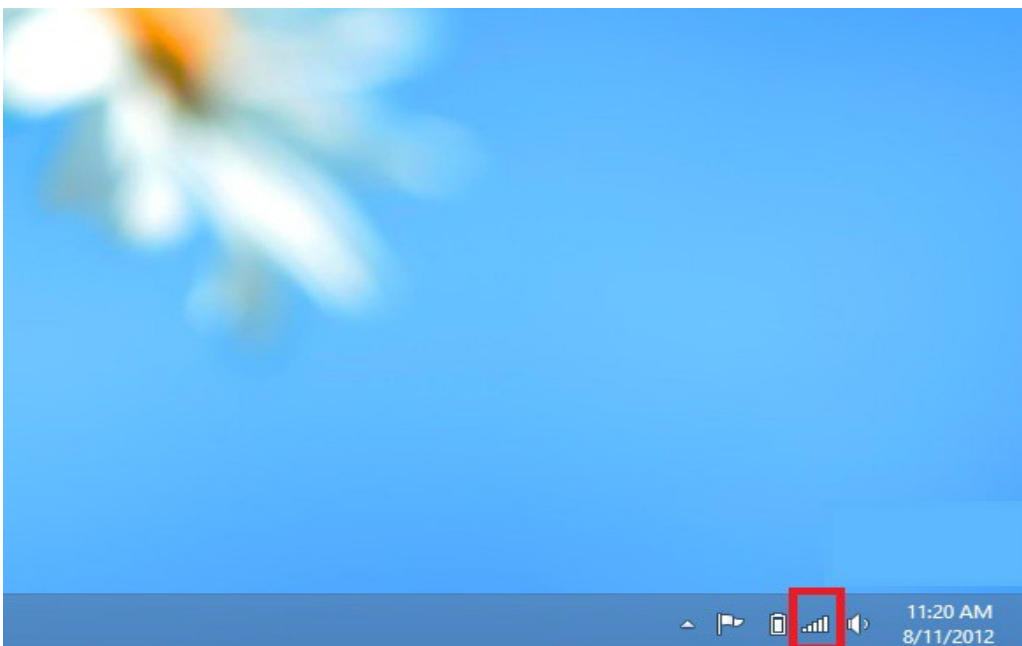

Another pop-up window will appear

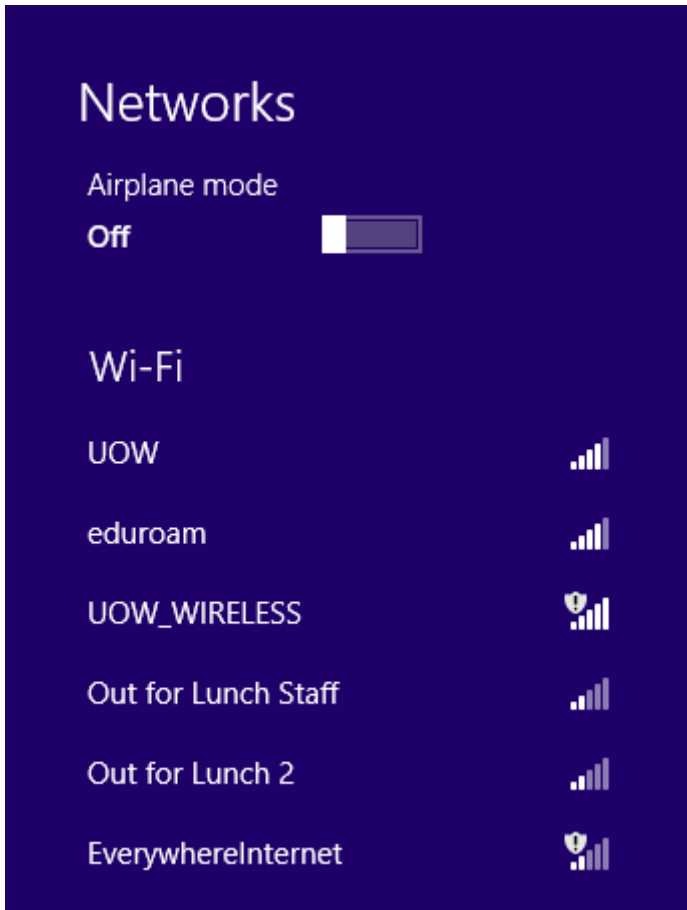

Ensure the check box is Un-ticked and Click the **OK** Button

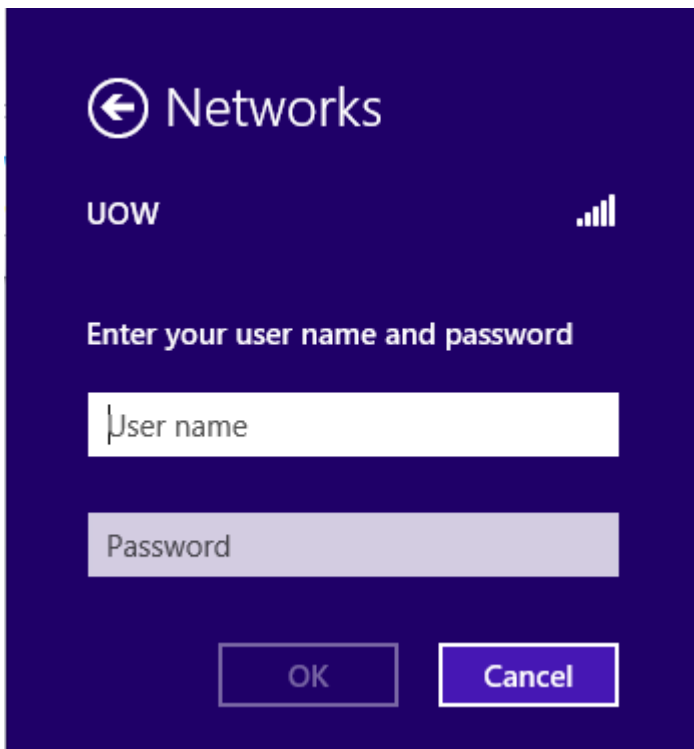

Click the **Close** button

While still in desktop view, click on the wireless icon on the taskbar

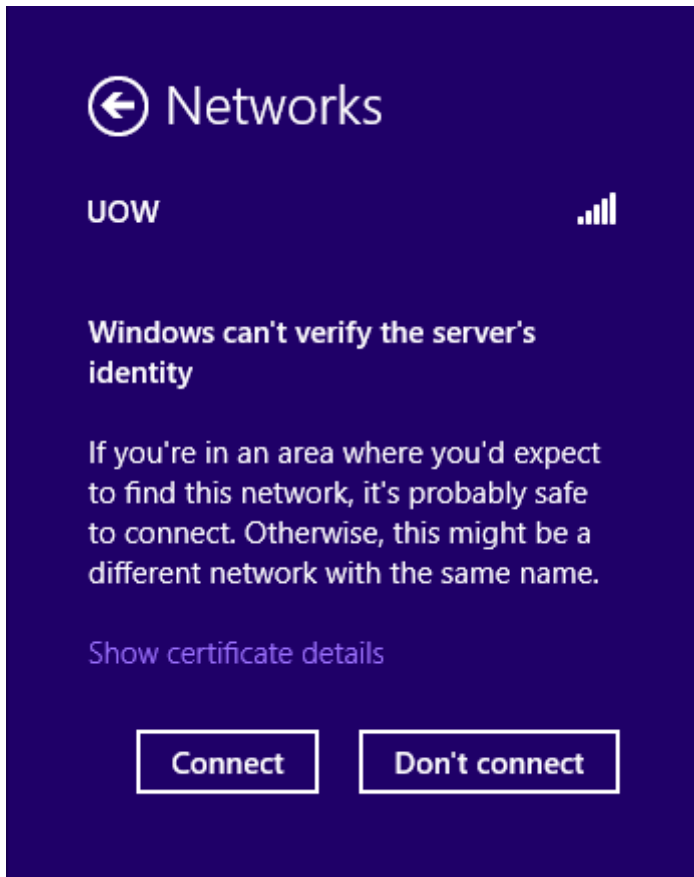

This bar will appear on the right of your screen. Select **UOW** and click **Connect**

When the prompt appears, type in your *SOLS username and password*

Then click **OK**

Note: This message may appear

Click **Connect**

You should now be connected to the UOW wireless network.

For further assistance accessing the wireless network please see the Service Desk located at ITS Central Labs in Building 17, Level 1 or telephone 4239 2000
