

Bachelor of Science (Geosciences)

The Degree Coordinator is Dr Marji Puotinen - School of Earth and Environmental Sciences, Room 41.G34 telephone (02) 4221 3589, email: marji@uow.edu.au

A major in Geosciences offers a combined program of study in the two disciplines of Geography and Geology. This major is designed to provide greater flexibility for students wishing to take a broad range of subjects at the undergraduate level.

Geosciences Major		cps	
100-level			
At least three 100-level Earth and Environmental Sciences subjects			18
Recommended elective:			
SCIE103	Climate Change	6	2
200-level			
EESC204	Introductory Spatial Science	6	1,2
Plus three 200-level Earth and Environmental Sciences subjects			24
300-level			
At least three 300-level Earth and Environmental Sciences subjects			24
Major total			66
Additional subjects from the Science Schedule totalling 24 credit points			24
			90
Plus elective subjects from the Science and/or General Schedules totalling 54 credit points			54
Degree total			144

Honours in the School of Earth and Environmental Sciences

Please refer to Section 7.5 for further information about the Honours program including entry requirements, relevant contact details and instructions for how to apply.
