

MANAGEMENT CADETSHIP

Great opportunities for
great people

Are you finishing the HSC this year and interested in combining work and study? Are you a high achiever who is looking for a rewarding experience beyond just going to a great Uni?

The University's Management Cadetship offers a wonderful opportunity to combine work and study. Cadets work in a number of areas across the University including Personnel, Finance, Marketing, Audit, Policy & Governance and Student Administration. Successful applicants undertake a relevant undergraduate degree majoring in areas such as Management, Marketing, Finance, Accounting or Business Information Systems. Other areas of study may be acceptable if they are considered compatible with the work placements of the cadetship.

During the final two years of the Cadetship, cadets undertake a specialised placement relating to their degree major which gives the cadet the edge in becoming a 'young professional' in their chosen field.

Cadets receive an annual salary with increments each year, plus an education allowance covering course fees and a book allowance. Cadets are allocated study leave during session to attend lectures and tutorials.

GREAT COMBINATION

The Cadetship provides an enriched study experience combining real life work experience with study in a great university.

"For those wanting a wide array of business experience and the opportunity to apply their study to real-world problems, The Management Cadetship is a brilliant opportunity. The Cadetship has given me the experience of working in a large, dynamic and supportive organisation, within a variety of teams and units with friendly and helpful colleagues. The combination of studying a degree while working at UOW is a powerful one. As an Information Technology student, I have had the opportunity to experience the business side of IT and apply these experiences to my studies. Conversely, my studies have helped give me the skills necessary to work on a variety of challenging projects during the Cadetship which have been tailored to my areas of interest. The exposure I have received to a wide variety of business functions has shown me the range of opportunities available to take my career, and the Management Cadetship will be a valuable head-start into the industry. My past placements have included Financial Services, Client Service, Enterprise Content Management (Web/Digital Signage), and Business Solutions (Scholarships and Events Management). I recommend this program for anyone looking for a challenging, exciting and rewarding experience."

Paul Vaartjes
Management Cadetship Second Year
Bachelor of Information Technology (e-Business & Web Design and Development)

GREAT CHALLENGES

Cadets are challenged in their roles to continue to learn and develop their skills.

“The UOW Management Cadetship is the best program of its kind in the state, if not the country. Nowhere else will high school graduates be given the opportunity to develop skills in such an encouraging workplace and experience university life while working towards a degree. I have experienced so many valuable things so far including engaging with the media, administering the study abroad and exchange program, recruiting staff members, distributing scholarships, promoting university prizes and working on health and safety campaigns. You will be aligned with mentors who can challenge and lead you to reveal your career goals. The Management Cadetship is flexible by enabling you to choose areas of specialisation. It is the best path towards a successful professional career.”

Sean Blake

**Management Cadetship Third Year
Bachelor of Commerce Dean's Scholar
(Marketing and Public Relations)**

GREAT DEGREES

The University of Wollongong is one of Australia's top universities, consistently achieving 5-star ratings from the Good Universities Guide.

“The Management Cadetship is a fantastic opportunity to combine work and study, allowing you to apply what you are learning at University directly into the workplace. The Cadetship has so far proven to be a challenging but rewarding experience. It provides invaluable opportunities to network with an array of people and develop your communication and business skills. Experiencing a variety of business environments has allowed me to explore my interests, which will help me determine my future career path. I believe that the skills I am learning through the Cadetship will give me a huge advantage in the future. “

Emily King

**Management Cadetship Second Year
Bachelor of Communication and Media Studies (Advertising and Marketing and International Media and Communication)**

GREAT EXPERIENCES

Cadets participate in many other activities such as graduation ceremonies, promotional days, and staff development programs. Cadets are also encouraged to consider a period of overseas study under the University's study abroad program.
