1. ENGLISH LANGUAGE TESTING AT UOW AND WUC

Dear UOW representatives,

Attached you will find a diagnostic chart for English Language testing. This test has been designed by the Wollongong University College to determine a prospective students’ level of English prior to enrolment in a UOW/WUC course.

This test can be used by prospective UOW/WUC students only to determine how much English a student needs prior to enrolling and should not be used instead of a recognised English proficiency exam (IELTS/TOEFL).

The test can be administered by recognised UOW/WUC representatives as long as students are offshore at the time of sitting a test. Students who are in Australia or New Zealand are required to take this test at the Wollongong University College (Wollongong/Sydney/Auckland).

Applications for testing kits may be submitted to UniAdvice’s Operations Coordinator, Ms. Sandra Lee.

Agents will not be able to administer an English waiver examination. Students with exceptional circumstance for not meeting the UOW/WUC English language requirement will be required to read the attached document in conjunction with the ‘Students Not Meeting English Language’ application/procedure. Further details on this procedure can be obtained from UniAdvice.

Kind regards

Iain Lockie
