UNIVERSITY OF WOLLONGONG

POSTGRADUATE ENTRY REQUIREMENTS

FACULTY OF HEALTH AND BEHAVIOURAL SCIENCES

This document sets out the minimum entry requirements for admission to specific postgraduate courses. Levels of achievement are as applied to an Australian degree: for example a 60% requirement means a 60% average mark or equivalent marking system in a degree at an Australian university. Equivalent levels of achievement in countries with different marking or mark distribution systems (for example, India, Bangladesh, Nepal, China, Taiwan) are set out in separate documents maintained by UniAdvice. The ranking or standard of individual institutions will be taken into account in such overseas equivalence documents.

Please note that the attached requirements are to be used as a guide only and do not guarantee that an offer will be made as other relevant criteria will be taken into account, such as English language and assessment of individual qualifications completed by the applicant. Courses offered by the Faculty of Health & Behavioural Sciences that are not shown on this document are assessed by the Faculty. All enquiries should be directed to the relevant admissions staff in UniAdvice.
