If you are looking for a two-year program of study, the University has introduced a large range of options for postgraduate coursework study. The options available are:

- a Double Masters degree
- an Articulation program of two Masters degrees
- a two-year Masters degree

All of the options described below are registered on the Commonwealth Register of Institutions and Courses for Overseas Students (CRICOS) as two years of full-time study.

In addition to completing a registered two-year full-time study pattern, these programs have the advantage of reduced tuition fees.

### DOUBLE MASTERS DEGREES

The advantage of a Double Masters program is that successful applicants are given an offer of admission to the full two-year program comprising two Masters degrees. Double Masters degrees require 14 subjects to complete, instead of 16 subjects required to complete two separate one-year Masters. Students therefore make a tuition fee saving of two subjects.

Registered Double Masters program have been introduced in 2008 for commerce and business studies.

### GRADUATE SCHOOL OF BUSINESS (GSB)

GSB Double Masters programs are offered at both the Sydney and Wollongong campuses of UOW. They provide the opportunity to obtain qualifications in two specialist areas, and the Master of International Business program is available if your previous degree is not in the areas of commerce or business. The tuition fee saving for these Double Masters programs is $4,900.

- Master of International Business; and Master of Science (Logistics)
- Master of International Business; and Master of Project Management
- Master of International Business; and Master of Retail Management
- Master of Science (Logistics); and Master of Project Management

### FACULTY OF COMMERCE

If your previous Bachelor degree is not in the field of commerce or business, a Double Masters including the Master of Commerce (MCom) is an ideal choice. These options provide a pathway (via the MCom) to more advanced study in one of the Faculty's specialist areas.

Students enrolling in an Master of Commerce Double Masters program save a total of $6,000 compared to enrolling in both degrees separately.

- Master of Commerce; and Master of Strategic Management
- Master of Commerce; and Master of Strategic Marketing
- Master of Commerce; and Master of Strategic Management & Marketing
- Master of Commerce; and Master of Applied Finance
- Master of Commerce; and Master of Strategic Human Resource Management

If you already have a degree in commerce or business, you may qualify for entry to one of the Faculty's specialist Double Masters programs, which include a fee saving of $4,900.

- Master of Strategic Human Resource Management; and Master of Strategic Marketing
- Master of Strategic Management; and Master of Strategic Marketing
ARTICULATION PATH

COMPLETE TWO MASTERS DEGREES IN TWO YEARS

An Articulation Path is where you can complete a one-year Masters degree, and then enter a second degree and complete it in a shorter period than the normal standard duration for the second course.

In all of the Articulation Paths described below, the second Masters course would normally require 1.5 – 2 years to complete; however, because it is approved as a formal articulation, you can complete the second Masters program with only 6 more subjects (one year of study), thereby saving half of the total tuition fees for the second course.

An offer of admission can be given to both courses upon application, allowing you to obtain a visa for the full two years to complete both Masters; or you can apply for articulation into a second course after completing one Masters degree from the list below (that is, obtain your visa for one year, then apply for a visa extension when you apply for articulation to the second Masters course).

Articulation into the Master of Business Administration (MBA)

The following degrees articulate into the MBA:
- Master of Accountancy
- Master of Applied Finance
- Master of Commerce
- Master of Engineering Management
- Master of Engineering Practice
- Master of Finance
- Master of Forensic Accounting
- Master of Health Leadership and Management
- Master of Health Management
- Master of Information Technology Management
- Master of International Business
- Master of Management
- Master of Nutrition Management
- Master of Project Management
- Master of Retail Management
- Master of Science (Logistics)
- Master of Science (Nutrition Management)
- Master of Strategic Human Resource Management
- Master of Strategic Management
- Master of Strategic Management and Marketing
- Master of Strategic Marketing
