

STUDY THEME: INTERNATIONAL RELATIONS AND BUSINESS IN ASIA

STUDY ABROAD AT UOW

Study Abroad students can select a program of study for one or two sessions from any of the academic disciplines at the University of Wollongong. A series of study packages covering various academic themes has been developed to assist with the planning process. Some of the themes include opportunities for students to incorporate an extra dimension to their semester abroad through an associated volunteering, service learning or internship relevant to the topic.

The selection of subjects highlights offerings in the particular study area in either Autumn (February-June) session or Spring (July-November) session. The themes are indicative only and students have the flexibility to substitute subjects from any of the academic faculties.

More information about the subjects, including individual subject descriptions, assessment requirements and pre-requisite information is available in the Undergraduate Handbook at: www.uow.edu.au/handbook

The latest timetable information for Wollongong campus offerings is at www.uow.edu.au/student/timetables

- > The International Studies offerings, including language, politics and sociology, help prepare students for future careers in international organisations, as part of the public sector or as part of non-government organisations.
- > The International Business offerings within the Faculty of Commerce prepare students to respond to the intricacies of international business including the impact of differing cultures and languages, issues posed by differing markets and differing government regulations.
