English Language Proficiency
& the International English Language Testing System (IELTS)

24 May, 2010
12:30 – 1:30 pm
Lecture Theatre 14.G01

There is no requirement to register for this presentation.

Watch out for more on the ASD Staff Development Calendar:

In 2010, a UOW-wide Working Party was established to implement methods, policies and practices to assist in the ongoing improvement of English language proficiency of all students throughout the course of their degrees.

The Working Party will look at initiatives to better support students in the further development of their English language needs thereby enhancing students’ opportunities for success both within the University context and beyond.

Close to 6000 organisations and more than 1.4 million test takers around the world trust and recognise IELTS as a secure, valid and reliable indicator of true-to-life ability to communicate in English for education, immigration and professional accreditation.

Guest speakers, Geoffrey Crewes and Louise Dunn will be explaining the IELTS test format and band scores as well as providing examples of student performance in an IELTS test.

This forum will be of interest and relevance to all staff working in areas that support our International students.
