

Gas and Coal Outburst Committee

The Committee formed for the 1995 (Wollongong) Gas & Outbursts Symposium and the NSW Department of Industry & Investment - Mineral Resources has identified a need to keep some type of regular seminar functioning to maintain a focus on problems associated with outbursts and gas management.

Half Day Seminar

The target audience is for a cross section of industry from Mine Management and Supervisors to Machine Operators. Industry Specialists, Equipment Suppliers and Researchers are also encouraged to attend.

Date: **Wednesday 1 December 2010**
