

Nuclear Power Generation Survey

The following survey is aimed at gauging public opinion surrounding nuclear power generation. The information gathered will be used to direct our research in areas of concern or interest to the public. Thank you for taking the time to complete this survey.

Age: _____ Occupation: _____ Gender: M / F

Question 1

Place the following aspects of nuclear power generation in order of greatest concern to you. (Number each box from Highest [1] to Lowest [5]):

- Safety (losing control, terrorism, nuclear weapons)
- Setup cost
- Environmental impact (mining and waste)
- Decommissioning (shutting down stations at the end of their lives)
- Diverts attention from exploring renewable energy production methods

Question 2

Australia does not currently generate nuclear power. Do you support nuclear power generation to satisfy the future energy needs of Australia, while reducing greenhouse gas emissions?

YES / NO

Question 3

As a whole, do you think nuclear power is better than current methods of power generation, such as coal and gas?

YES / NO

Question 4

Who do you think should be responsible for decommissioning nuclear power stations at the end of their life? (Please circle one)

Government International Agency Power Company End User

Question 5

How many years do you think it takes for a nuclear power station site to become safe for re-use after closing it down? (Please circle one)

1 - 10 10 - 100 100 - 500 500+
