Information systems and activity theory: volume 2 theory and practice

ISBN 0 86418 6967

1. Management Information Systems – Design
2. Information storage and retrieval systems – Business
3. System design

I Hasan, Helen. II Gould, Edward. III Larkin Peter, Vrazalic Lejla

651.842

Contents

Introduction	1
1. An Overview of Techniques for applying Activity Theory in Areas Related to Information Systems <i>Helen Hasan (Information Systems, University of Wollongong)</i>	3
2. Cultural-Historical Psychology and Activity Theory in Everyday Practice <i>Irina Verenikina (Education, University of Wollongong)</i>	23
3. Techniques to Analyse Power and Political Issues in IS Development <i>Lejla Vrazalic (Information Systems, University of Wollongong)</i>	39
4. On the Materiality of Social Capital: an Activity-Theoretical Exploration <i>Yrjö Engeström (University of California, San Diego and the Academy of Finland), Heli Ahonen (University of Helsinki)</i>	55
5. The cognitive and the social aspect of computer-mediated work, exemplified by the research traditions of HCI and CSCW <i>Annette Løw Aboulafia (University of Roskilde, Dept. of Psychology)</i>	75
6. Using Activity Theory and Developmental Work Research as Tools to Analyse Contradictions in Information and Operational Systems: a Case Study of DHL <i>Roberta Hill, Phillip Capper, Kathryn Hawes and Ken Wilson (Centre for Research on Work, Education and Business (WEB Research))</i>	99

7.	Individual Interface Design For Executive Information Systems: An Activity Theory Approach <i>Edward Gould (Information Systems), Irina Verenikina (Education), University of Wollongong</i>	117
8.	An Historical Study of a Sequence of EIS Projects in an Organisation <i>Helen Hasan (Information Systems, University of Wollongong)</i>	125
9.	Business Process Modelling Using Activity Theory: An Approach to Data Capture and Analysis <i>Martin Ellison and G. Michael McGrath (CSIRO - Macquarie University Joint Research Centre for Advanced Systems Engineering, Macquarie University)</i>	143
10.	Using Activity Theory to enhance a Business Process Model <i>P. A. J. Larkin (Information Systems, University of Wollongong)</i>	173
11.	On Activities and Design: A Conversation Edited transcript of a video conference between Wollongong (Australia) and Aarhus (Denmark) December 7, 1998 Participants (in Aarhus): <i>Susanne Bødker, Olav Bertelsen</i> Participants (in Wollongong): <i>Helen Hasan, Roberta Hill, Phillip Capper, Henry Linger, Ronnie Gori, Martin Ellison</i>	199
