BUSINESS NETWORKING EVENT

with Tamantha Stutchbury

Unveiling the iAccelerate Project

We invite all our members and guests for the last Business Networking Event of the year for JCI Illawarra, with a very special unveiling of the University of Wollongong’s iAccelerate Project. This project has evolved from a year of engagement with local stakeholders to identify the critical components of the Illawarra Innovation Ecosystem.

iAccelerate is focused on harnessing the entrepreneurial spirit of the region to bring about economic diversification and growth – allowing local people to develop ideas in the Illawarra. iAccelerate consists of a number of initiatives, including the development of an entrepreneurship club, innovation and entrepreneurial programs, ideas incubators, mentorship, investor matching and business acceleration.

Guest Speaker –

Tamantha Stutchbury is a University of Wollongong (UOW) graduate, who after completing her degree undertook a number of post-doctoral positions conducting pre-clinical assessment of novel cancer therapeutics. Tamantha was a researcher on a project that developed a cancer chemotherapy re-formulation entitled Fluorodex.

A key driver for Tamantha has been the desire to see research have real world impact, and for the past three years she has been working at the Commercial Research and Technology Transfer office at UOW.
