

Mac OSX 10.7 Lion Wireless Setup Guide

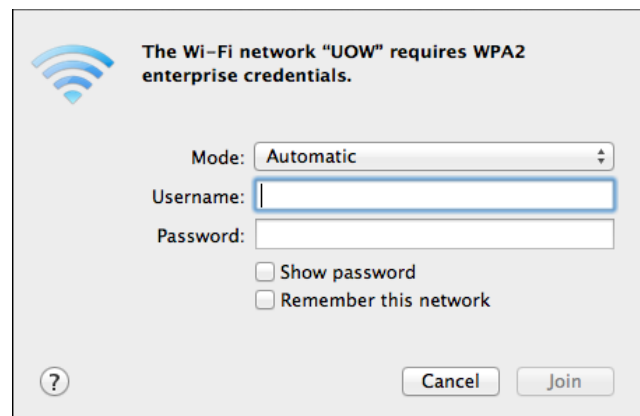

This guide is for new connections to the UOW network.

Note: You must be in range of the UOW network to configure your device. A map of the wireless networks is available at <http://www.uow.edu.au/its/network/wireless/coverage-map/index.html>

1. Turn on Wi-Fi
2. Select UOW from the list

3. Enter your UOW username and password
4. Leave other fields as shown
5. Click Join

6. Click **Show Certificate** and **Always Trust** before clicking Continue. You may need to enter the computer username and password

Please note that before accepting the certificate you should confirm that it contains the following details:

Certificate Name: wireless.uow.edu.au
Issued by: QuoVadis Global

For further assistance accessing the wireless network please see the Service Desk located at ITS Central Labs in Building 17, Level 1 or telephone 4239 2000

Note: When you are not at the University of Wollongong, make sure you change your Location settings back to Automatic as not changing it will impact your internet access outside the university network.
