This Strategic Plan provides a catalyst for renewal. It aims to deliver a research-intensive university, confident of its mission, celebrated for its excellence in education and focussed on recognition in the top 1% of universities internationally.

The transformative agenda for the next five years has been developed in the context of a long-term vision for UOW towards the end of the next decade. Children entering school now could be graduating from university in fifteen years’ time.

We already know that this generation will require the skills, knowledge and creativity to solve major issues which transcend national boundaries. As graduates, they will live and work in a world facing significant challenges. They will need to be exceptional people.

At UOW, they will experience an exemplary and sustainable multi-campus community where:

- A research-led culture and its outputs create an environment where lives are transformed and better futures are created
- A high quality learning environment and student experience develops confident graduates with a lifelong engagement with UOW
- International activity and awareness is embedded in all that is done while our commitments to regional communities are strengthened
- People are passionate, inspired by a spirit of enterprise and engagement with the world
- A connected digital organisation is driven by a collaborative flexible culture

Aspirational, of course, but that has always been the spirit at the University of Wollongong.

We will measure our performance against a balanced scorecard. Each year, we will track our capacity to meet our goals under a suite of key performance indicators, applied across the University - our campuses, faculties, units and entities.

The KPIs are grouped under:

- International & National Rankings
- Research
- Learning & Teaching
- International
- Staff
- Financial
- Facilities Management
- Flagship / Strategic Project

We aim to develop graduates who are intellectually fearless, socially connected leaders in their chosen fields and vocations. They will be exceptional people.

Our graduates are creative and critical thinkers. They are able to challenge and cross boundaries. They are passionate, engaged and highly employable. They carry UOW’s values into their workplaces and communities as responsible, tolerant and collaborative contributors.

Our graduates are proud of their University and value their lifelong connection.
