

SSMCS'15 Workshop Program

2nd International Workshop on Smart Simulation and Modelling for Complex Systems
(SSMCS2015)

Date: July 25, 2015

Time: 8:00 ~ 15:00

Venue: The New Building, Facultad de Ciencias Económicas ([Google Map Link](#))

Workshop Proceedings: [Download the Proceedings](#)

Time	Paper	Author
8:00 ~ 8:45	Registration	
8:45 ~ 8:50	Workshop Welcome	
8:50 ~ 9:20	Adaptive Forwarder Selection for Distributed Wireless Sensor Networks	<i>Nor Khalid, Quan Bai</i>
9:20 ~ 9:50	Trust Transference on Social Exchanges among Triads of Agents Based on Dependence Relations and Reputation	<i>Yunevda Rojas, Diana Francisca Adamatti, Graçaliz Dimuro</i>
9:50 ~ 10:20	A Multiagent-Based Domain Transportation Approach for Optimal Resource Allocation in Emergency Management	<i>Jihang Zhang, Minjie Zhang, Fenghui Ren, Jiakun Liu</i>
10:20 ~ 11:00	Coffee Break	
11:00 ~ 11:30	A Proto-type of A portable Ad Hoc Simple Water Gauge and Real World Evaluation	<i>Takanobu Otsuka, Yoshitaka Torii, Takayuki Ito</i>
11:30 ~ 12:00	Exploiting Vagueness for Multi-Agent Consensus	<i>Michael Crosscombe, Jonathan Lawry</i>
12:00 ~ 12:30	Selecting Robust Strategies Based on Abstracted Game Models	<i>Oscar Veliz and Christopher Kiekintveld</i>
12:30 ~ 13:50	Lunch	
13:50 ~ 14:20	Simulating and Modeling Dual Market Segmentation Using PSA Framework	<i>Quan Bai, Jiamou Liu, Ziheng Wei</i>
14:20 ~ 14:50	CORPNET: Towards a Decision Support System for Organizational Network Analysis using Multiplex Interpersonal Relations	<i>Jiamou Liu, Anastasia Moskvina, Michael Ourednik</i>
14:50 ~ 15:00	Workshop Conclusion	

SSMCS'15 Workshop Committee
