Information Security Measures
on Citizens and Business

Editors: Katina Michael and M.G. Michael

New publication

The Social Implications of Information Security Measures on Citizens and Business

May 2006, 262 pages

This multidisciplinary publication presents the current and potential status of information security measures, considers their implications on citizens and business, and identifies their impact on legislation and privacy at a local and global level.

The papers are:

1 The proliferation of identification techniques for citizens throughout the ages
Katina Michael and MG Michael, School of Information Technology and Computer Science, University of Wollongong

2 Social impacts of transport surveillance
Marcus Wigan and Roger Clarke, Oxford Systematics, Xamax Consultancy Pty Ltd

3 Identity management: is an identity card the solution for Australia?
Margaret Jackson and Julian Ligertwood, School of Accounting and Law, RMIT University

4 Community perceptions of biometric technology
Suzanne Lockhart, Department of Criminology, University of Melbourne

5 The social context of the security of Internet banking
Supriya Singh, Royal Melbourne Institute of Technology /Smart Internet, Technology Cooperative Research Centre (SITCRC)

6 The importance of utilising electronic identification for total farm management in Australia
Adam Trevarthen, School of Information Technology and Computer Science, University of Wollongong

7 Using scenario planning in the evaluation of information security applications
Laura Perusco, School of Information Technology and Computer Science, University of Wollongong

8 Regulating telecommunications interception & access: a seachange in surveillance laws
Simon Bronitt and James Stellios, ANU College of Law, The Australian National University

9 The application of critical social theory to national security research
Holly Tootell, School of Information Technology and Computer Science, University of Wollongong

10 Australia's anti-terrorism legislation: the national security state and the community legal sector
Mark Rix, Graduate School of Business, University of Wollongong

11 E-courts: toward information protection management structures
Lauren May and Mark Burdon, Information Security Institute, Queensland University of Technology
